Chairman of Indiana Democratic
Convention Roasts

POLITICAL GRAFTERS

Declares One Republican Senator Died
on Way to Prison, Another Es-
caped by Technicality and
Third Protected Fraud.

Indianapolis, June 7.—Democrats of
Indiana met here in state convention
today.

They strongly endorsed Hon. W. J.
Bryan as the presidential nominee in
1898. A state ticket for all officers
except governor and reporter of the
supreme court was selected.

Hon. Benjamin F. Shively of South
Bend was elected permanent chair-
man. In his address Mr. Shively un-
mercifully scored so-called graft in pol-
itics. He spoke of insurance com-
panies' contributions to Republican
campaign funds, terming such practice
a crime. He continued:

"Republican United States Senator
Mitchell witnessed the wrongful ap-
propriation of public property to pri-
vate individuals under the form of
law and he and his associates attempt-
ed the wrongful appropriation without
the form of law of 300,000 acres of
public land, and Mitchell died on his
way to prison.

"A Republican United States sen-
ator from Nebraska peddled out post-
officers in his state for his own gain
as a hawk peddles fish, and only
escaped conviction on a technicality.
of Kansas employed the power of his
senatorial office to protect a get-rich-
quick concern that was picking the
pockets of his Kansas constituents.

"A Platt and a Depew—men long
in the public life of the country and
who had been regarded as paragons
of official and business integrity—are
at last discovered to have been the
commonest sort of common grafters.

"The disease itself suggests the
remedy. It began where public power
was first diverted from public pur-
poses and made the source of private
property. Withdraw the privilege and
the temptation to corruption which
it engenders disappears."

TWO WILL SWING.

Head of Rangers Says Conditts Were
Murdered by More Than One.

Houston, June 7.—Captain McDon-
ald, head of the ranger forces, spent
Wednesday evening in this city, and
in discussing the murder of the Con-
ditt family at Edna declared two men
would yet swing for that tragedy, for
which Monk Gibson, alone, has been
under arrest and several months con-
fined in jail at San Antonio. McDon-
ald says he was never engaged in try-
ing to prove the negro boy is inno-
cent, but in endeavoring to locate
those connected with him in the crime.
He says a negro man is now in a Texas
jail whose hand print exactly fits
bloody imprint made on the wall in the
Condit home, and that other circum-
stantial evidence surrounds the sus-
pected man. He also intimates that
another party will soon be arrested in
Jackson county under grand jury in-
dictment.

SPEAKS FOR PACKERS

Manager Wilson of the Nelson-Mor-
ris Company

APPEARS FOR EACH.

General Denial of the Charges Set
Forth in the Report of Messrs.
Neill and Reynolds Made
by the Spokesman.

Washington, June 7.—The house
committee on agriculture decided to
comply with the request of the Chi-
cago packers on the Neill-Reynolds re-
port regarding conditions in the Chi-
cago packing houses. The request
was made by Thomas Wilson, manager
of the Nelson-Morris company, but in
this instance authorized to speak for
all the Chicago packers.

Mr. Wilson made a general denial
of the conditions in the packing houses
as set forth in the Neill-Reynolds re-
port. He began by inviting the com-
mittee to come to Chicago and spend
a week in personal investigations.
Some suggestions made in the report,
he said, had already been complied
with by the packers, such as addition-
al sanitary facilities.

As to the charge that canned meats
were boiled in water to "freshen them
up," Mr. Wilson said there was abso-
lutely nothing in this. Canned meat,
he said, was as good five years after
it has been put up as it is five minutes
afterwards, providing no air had got
to it. If air had reached the meat
it would be spoiled. What the cans
were put in hot water for was to take
off the old labels, which, he said, was
an injury to the appearance of the
goods in sale. He denied that there
was any diseased cattle or hogs butch-
ered for food. In every carload of cat-
tle or hogs, he said, some were likely
to be dead, and some injured. This
class of stock was sent to the Stand-
ard Rendering company, which is a
very different institution from the
standard slaughtering companies, al-
though the two were likely confused
in the mind. The companies turned
the dead and diseased meat into grease
which is a co-reduction in the manufac-
ture of soap.

Mr. Wilson described in detail the
operation of preparing canned meats.
Mr. Wilson declared that the live-
stock and packing industries have suf-
fered irreparable injury by the "un-
just and monumental criticism." He
said the packers had no objection to
the government putting on as many in-
spectors as it desires so long as the
packers do not have to pay them. He
declared the business would be bene-
fited by good inspection.

LOSS WILL BE GREAT.

Packing Houses Estimated to Be Tre-
mendously Damaged.

Kansas City, June 7.—It is estimat-
ed, says the Journal, that the business
done by the packing houses here will
suffer to the extent of \$10,000,000 as
a result of the investigation of "dressed
meats." Representatives of the vari-
ous plants seen agreed with the esti-
mate in the telegraphic dispatches
of Wednesday that the business of the
whole country would show a loss of at
least \$150,000,000.

Deadlock On.

Columbus, O., June 7.—Miners and
operators of Ohio practically came to
a deadlock in an attempt to come to
some agreement regarding dispute
about wages.

JAPS IN TEXAS.

Declared to Be a Great Success as Horticulturists.

Washington, June 7.—The success of the plan of colonizing the Japanese in Texas has been brought to the attention of the bureau of immigration by Representative Slayden of Texas in a letter received from one of his constituents engaged in extensive operations in San Antonio, and referred to the bureau of information. The writer speaks of the qualifications of the Japanese as horticulturists and of the efforts now under way to import to this country a considerable number to engage in that industry. Those now located in Texas, at Mitchell Lake, have shown such aptitude as to encourage the belief that their migration from California has been productive of good.

Realizing, however, the difficulties which might be encountered through a misapprehension of the government officials that the prospective additions from Japan to the Texas colony would simply be a means of evading the contract labor law, the matter has been put before the state department and bureau of immigration with the view to the establishment of the bona fide nature of the plan.

INVADIED BY GUARD.

Reception Interrupted and Party Dragged Down Stairway.

Jackson, Miss., June 7.—The governor's mansion, brilliantly illuminated in honor of a reception tendered by Miss Vardaman to young guests, was invaded by the provost guard of the state in search of a young man charged with evading drill duty. The truant was found hiding upstairs, and dragged down the stairway and through the reception hall, causing consternation among the guests. Governor and Mrs. Vardaman both protested against the search, but to no avail.

Menacing Attitude.

Odessa, June 7.—Strikers are assuming a menacing attitude.

ALLEN ACADEMY COMMENCEMENT

Final Exercises Last Night—Awarding of Medals and Diplomas—List of Distinguished Students.

The final exercises of the Allen Academy commencement were held at the opera house last night with Prof. J. H. Allen presiding, and the following attractive program was carried out:

Conferring of Diplomas.

A large audience thoroughly enjoyed the exercises, particularly the debate of the seniors, who ably discussed a subject out of the ordinary and of potential interest. Like the juniors of the preceding evening, the young men's speeches showed that they had been prepared with much thought and care, and they were fully up to the high standard of debate established by the Academy boys. The juniors have a most promising class for the senior work and honors of the coming year. The address of Mr. Jas. B. Dunn Jr. was thoughtful, practical and timely.

Great interest attaches to the awarding of the medals, and the names of the winners, and the names of the pupils distinguished by classes are given below. The exercises were concluded with the award of graduating honors to Mr. Jas. B. Dunn Jr.

Catch the next car that passes and come to see us, and if the car seems to be late in arriving, just walk the extra block—the exercise will be good for you, anyhow.

CARLOAD OF POTATOES SHIPPED

Brazos County Truck Growers' Association Made a Shipment to Chicago Last Night.

The Brazos County Truck Growers' Association made a carload shipment of Irish potatoes to Chicago last night via the H. & T. C. There were a number of contributors to the shipment which was made under the direction of Mr. W. O. Sanders, Prof. E. J. Kyle and I. M. Cook. Yeager & Buchanan and Tom Syptak were the other shippers.

The car was sold on the track in Bryan at 80 cents per bushel to Mr. W. M. Cox of Brenham, representing H. Woods of Chicago, and brought for the growers about \$360. The Eagle learns there is probably another car available for shipment in the county.

The price received for this shipment and generally prevailing looks attractive enough to cause a revival of interest in truck growing in the county, and the Eagle sincerely hopes it will result in that way.

COMING DOWN WITH THE CASH.

Several members of the trolley line committee were out yesterday soliciting stock subscriptions and met with distinct encouragement considering the short time out. Dr. J. W. Howell, J. Allen Myers and J. W. English got on the honor roll for a thousand dollars each and others intimated they were about ready to fall in line at the head of the procession. The work will be prosecuted with vigor.

BADLY ROUTED.

Revolutionists Claim to Be Successful in Two Battles.

City of Mexico, June 7.—News from General Toledo, in command of the Revolutionary party, says that he has in two engagements badly routed Cabrera's troops, and as his forces are being recruited by the arrival of large bodies of men, he has no doubt of his success and triumphant advance to Guatemala City.

Fighting is all being done by Gen. Toledo for General Barillas, who was detained by the Mexican authorities.

The revolutionists point to Guatemala City telegrams as being evidently concocted by the Cabrera government to hide the fact of the defeat experienced at the hands of General Toledo. Colonel Pinedo is in the province of Peten, and has many recruits.

CAN BE PLACED.
Supreme Court Reverses Ruling of At-
torney General Davidson.
Austin, June 7.—At a special ses-
sion of the supreme court Thursday
it was held that the names of candi-
dates for district and county clerks
in counties polling less than 1,600
votes can be placed upon the official
ballot. This was in the case of A. G.
Brooks, appellant vs. B. G. Dulaney
et al., appellees, certified question
from court of civil appeals First su-
preme judicial district. Brooks is
chairman of the county Democratic ex-
ecutive committee of Panola county
and refused to place the name of ap-
pellees on official ballot under the at-
torney general's ruling. Appellees sued
out a writ of mandamus in district
court. This the court granted. Over
fifty counties in the state are affected
by this holding of supreme court.

jutant General Hulen.

nounced Thursday by Adjutant Gen-
eral Hulen that the encampment of
the Texas National guard, would be

Troops from New Mexico and Arizona
will be July 20 to August 5. Regular
troops will stay from July 15 to Oct.
15. There will be twenty troops of
cavalry, and the Twenty-sixth infan-
try from Fort Sam Houston. Also a
detachment of hospital and signal
troops will be in attendance. Texas
state troops will be allowed pay the
same as in 1903, which is on the same
basis as regulars. It is estimated there
will be 5,000 troops here.

LUSITANIA LAUNCHED.
Giant Cunard Steamship Now Floats
Upon Briny Deep.
Glasgow, June 7.—The new Cunard
line steamer Louisiana, the world's
largest liner, was successfully launched
at Clyde Bank Thursday. Hun-
dreds of visitors from all parts of the
country, besides thousands of the local
population, witnessed the ceremony.
The Lusitania is the first giant
Cunarder to be launched, and her sis-
ter, the Mauritania, will follow her
into the sea a month hence.
The Lusitania is 790 feet long and
her greatest breadth is 88 feet, while
her depth moulded is 60-1-2 feet. Her
displacement is about 40,000 tons and
powerful turbine engines drive her
through the water at a sustained speed
of from twenty-four to twenty-five
knots. She has cabin accommodations
for 550 first-class; 500 second-class
and 1,300 third-class passengers, and
her crew numbers about 800.

UNFORTUNATE FAMILY.
Little Girl Dies From Burns and Fa-
ther Under Treatment.
Tyler, Tex., June 7.—The three-year-
old daughter of W. A. Thomason was
so badly burned over her entire right
side that death resulted. She was
playing with matches in her lap when
the dress ignited. The father is in
Kansas city for special treatment.

New Baseball Organization Begins to
Play in a Short Time.
Texarkana, June 7.—The Arkansas-
Texas Baseball league has been formed.
It includes Texarkana, Camden,
Line Bluff and Hot Springs. A. J.
Kizer of Texarkana is president. The
season opens on 26th instant, contin-

REMAIN AT TYLER.

Shops Cannot Be Removed.
Austin, June 7.—The state supreme
court has refused to grant a new hear-
ing in the case of the City of Tyler vs.
the Cotton Belt railway and held that
the general offices and machine shops
for the main line shall be maintained
at Tyler. The road is perpetually en-
joined from removing the same.

AMOUNT OF OUTLAY.
Texas Stands Excellent Chance to
Secure Sum Requested.
Washington, June 7.—Texas is in a
fair way to get from the United States
approximately \$400,000, the amount of
outlay in protecting the frontier
against Indians prior to the civil war.
Mr. Burleson succeeded in putting the
item in the urgent deficiency bill.

BOY LEFT.
Well Dressed and Liberally Supplied
With Suit Case of Clothing.
Booneville, Mo., June 7.—A conduc-
tor on the Missouri, Kansas and Texas
Flyer left a five-year-old boy with the
station agent here, the boy having
been placed in the care of Conductor
Belman at San Antonio with instruc-
tions to put him off at Booneville,
where relatives were to meet him. The
younger gave his name as Willis
Harris. No relatives met him. The
boy is well dressed and has a suit
case with plenty of fine clothing. He
said his father's name is William Car-
sted. He talks of living in New York
with "Aunt Lizzie." He tells of ser-
vants and electric lights, and his prac-
tice indicates he lived in a home of
wealth. The supposition here is the
child was kidnapped in New York,
and when closely followed the little
fellow was sent to Booneville to get
him out of the way. Every label and
mark whereby he could be identified
or his home ascertained had been re-
moved from his clothing.

Vienna, June 7.—Emperor William
proceeded Thursday to visit Count
Hans von Wilezek at Kreutzenstein

other. They were evidently drawn up
with a view to discouraging contin-

ance of report of coldness between Em-
peror William and King Victor Eman-
uel and consequent weakening of the
dreibund. The two emperors tele-
graphed jointly as follows: "As two
allies we send you, the third, since
united, our expression of unalterable
friendship." The Italian king's reply
was equally warm-hearted. He tele-
graphed: "I share your satisfaction for
the unity and beg you to accept as-
surance of my true and inviolable
amity."

AIKEN FARED WELL.
Managed to Purchase a Good Amount
of Coal Stock.
Philadelphia, June 7.—Testifying be-
fore the interstate commerce com-
mission Thursday Joseph K. Aiken, who
had been chief clerk in the superin-
tendent's office of the Monongahela
division of the Pennsylvania railroad,
revealed almost as startling evidence
as that given by Joseph P. Boyer be-
fore the commission Wednesday. On
a salary which he said varied from
\$80 to 126 per month, Aiken had pur-
chased stock in different coal com-
panies amounting to nearly \$75,000. He
admitted having received gifts of cash
from coal operators on Pennsylvania
lines, and had also received \$50 per
month for several months from the
company store.

Attorney Glasgow, for the commis-
sion, stated that owing to the large
number of witnesses still to be heard
the session at present hearing would
continue all this week and probably a
portion of next week.
A. W. Gibbs, general superintendent
of motive power of Pennsylvania rail-
road, stationed at Altoona, were re-
called and asked by Mr. Glasgow if
it was not a fact that most of the fuel
coal purchased by Pennsylvania Rail-
road company from the Keystone Coal
and Coke company's operations and
those of Colonel Alfred Hicks. Mr.
Gibbs said that it was so. Mr. Glas-
gow wanted to know if it was merely a
coincidence that the company's coal
was furnished by concerns in which
railroad officials were interested or
whether he had been instructed by any
higher official as to what companies
to get fuel coal from. Mr. Gibbs ex-
plained, as he did when previously on
the stand, that it was a custom for the
railroad to assist new operations by
purchasing fuel coal from them.

BOYER "FIRED."
Party Who Received Large Sums of
Money Is Discharged.
Philadelphia, June 7.—Joseph Boyer,
the Pennsylvania railroad employe
who testified before the interstate
commerce commission to having re-
ceived large sums of money from pro-
ducers of coal on Pennsylvania rail-
road lines, was dismissed from the
service of the company. When the
matter had been brought to the at-
tention of President Cassatt he di-
rected the immediate discharge of
Boyer.

TERRIFIC TORNADO.
Two Men Badly Injured and Several
Houses Destroyed.
North Branch, Minn., June 7.—A tor-
nado passed about half a mile east of
here Wednesday evening, doing heavy
damage, and probably a number of
lives were lost. No details have ar-
rived from the country, but the storm is
known to have destroyed at least farm
houses near town. Farmers Migram
and Benjamin Lagoo were badly in-
jured. The village of Wyoming was also
in the path of the storm. The home of
Mr. Funk at that place was destroyed
and some members of the family in-
jured.
At the village of Stacy, eight miles
south of here, the following damage is
reported: G. B. Baxter, residence and
barn gone, Swedish Lutheran church
destroyed, Olaf Anderson's barn de-
stroyed.

FAVORABLE REPORT.
This Will Be the Action if Culberson
and Bailey Are Willing.
Washington, June 7.—The treaty be-
tween the United States and Mexico,
prescribing the regulations to govern
the diversion of waters of the Rio
Grande for irrigation projects, was or-
dered favorably reported to the senate
committee on foreign relations pro-
viding it meets the approval of the
Texas senators. Senator Culberson was
instructed to confer with Senators Cul-
berson and Bailey concerning the re-
port.
Under like instructions Senator For-
aker was directed to report the "ban-
cos" treaty so that it shall not be dis-
turbed by the shifting of the Rio
Grande.

Attendance in Its History.
Corpus Christi, June 7.—The Texas
Press association met here Wednes-
day in annual convention. When it
was called to order there were 250,
nearly half ladies, present. After the
invocation the entire assemblage sang
"America." Thirty-three new mem-
bers were elected.
Mr. Thomas' paper on "Patent Med-
icine was well received. Much ap-
plause greeted the reading of the origi-
nal testimonials, particularly one
from President Lowry on hair restor-
ers.

Messages were received stating
freight rates on paper would not be
raised.
W. P. Whitman gave some valuable
ideas on the "Business End of the
Weekly."
"The Cost of Publication of a Six-
Column Quarto County Weekly per
Thousand Circulation," by D. S. Mayes
of the Messenger, Whitney, was an
excellent paper.
William G. Eichholz made a forceful
appeal for the Mutual Fire Insurance
association, whose officers were pres-
ent. Several of the newspaper men
are active in this organization, which
is formed for the benefit of the coun-
try editors.

stantly killed. The tragedy occurred
at the corner of Farney Keller's drug
store in the presence of ten or twelve
bystanders.
The weapon used was a shotgun

writ was granted, and the rink ceased
running.

a Broken Leg.
Beaumont, June 7.—Louis Forbette,
a white man, was brought to Beaumont
from Mart, on the Texas and New Or-
leans, suffering from a broken leg and
fractured skull. He was taken to the
hospital by order of the railroad com-
pany, but died a short time after-
wards. There is no clew as to how
his injuries were caused further than
that he was found alongside the tracks
by a section crew.
